Re: Illinois Commerce Commission Rock Island Clean Line Petition
Docket Number 12-0560

Dear Judge Jones:

Please be advised that as a resident of the State of Illinois I object to Rock Island Clean Line LLC's petition for a certificate as a public utility pursuant to 220 ILCS 5/8-406(a) as stated in Docket No. 12-0560.

I also object to the certificate to construct a specific transmission line or other facilities pursuant to 220 ILCS 5/8-503, and a certificate to exercise the power of eminent domain in connection with the construction of facilities pursuant to 220 ILCS 5/8-509.

Illinois farmland, a non-renewable resource, should not be taken out of production by a private corporation for private gain. There is currently adequate public utility service for the residents of the State of Illinois and Rock Island Clean Line LLC's proposed project does not serve a public purpose. Rock Island Clean Line LLC's project has no legal justification to authorize the taking of private land for private gain.

Thank you in advance for your time and consideration in this matter.

Sincerely,
